THE FIVE GOLDEN RULES

1 Always choose a BAR member

BAR companies have the experience, expertise and facilities to handle your move properly, If you need advice, call us on 01923 699 480.

2 Plan your move well in advance

Contact your local moving company up to one month before you hope to move even if you don't know exactly when the big day will be. They will tell you exactly what they offer and the areas you need to think about. This way you can plan your time and concentrate on the essentials.

3 Don't do the packing yourself

If you can afford to have it done professionally, do so. Packing is not expensive. BAR companies use a range of appropriate packing materials and employ fully trained staff who will pack your things professionally and safely.

4 Insurance

No matter how much care is taken with packing and handling, accidents do sometimes happen. All member companies must have insurance which meets BAR standards and we strongly advise you to discuss this with them.

5 Don't move on Friday

If you can, avoid Fridays as this day is always busy. Some moving companies may even offer a discount if you move in the middle of the week.
